REPORT OF THE SECRETARY OF STATE

DEPARTMENT OF STATE,
MADISON, WISCONSIN, July 1, 1920.

HONORABLE EMANUEL L. PHILIPP,
Governor of Wisconsin.

SIR: In compliance with the Statutes prescribing my duties, I herewith transmit the biennial report of this department covering the fiscal years ending June 30, 1919 and June 30, 1920. The report shows the condition of all state funds, together with detailed statements of receipts and disbursements for the period. In addition thereto will be found tables giving the net disbursements of the state for each year of the biennium, and tabular statements (under Appendix B,) of the valuation of the taxable property of the several counties of the state, as determined by the Tax Commission, for the years 1918 and 1919, with apportionment of tax and special charges for said years, collected in 1919 and 1920.

Respectfully submitted,
MERLIN HULL,
Secretary of State.

GENERAL FUND

This fund embraces all state revenues applicable to the payment of ordinary governmental expenses. The sources from which it is derived are: A general fund tax, a tax on railroad, telegraph, telephone, street railway, electric light, and insurance companies; a tax on incomes, legacies, and civil actions; peddlers' licenses, and fees received by the various state departments, etc. Expenditures therefrom are authorized by permanent and temporary appropriations.

A detailed statement of the transactions of this fund will be found in Appendix A.

Receipts and disbursements, for the two fiscal years, have been as follows:

Railroad Commission, administration	$14,855.10

STATE DEBT

The debt of the State, which was created principally for the purpose of carrying on the war for the maintenance of the Union, was converted into certificates of indebtedness to the state trust funds. The distribution of the debt to the various funds up to January, 1916, was as follows:

School Fund	$1,563,700.00
Normal School Fund	515,700.00
University Fund	111,000.00
Agricultural College Fund	60,600.00

By the provisions of section 20.05—2, Wisconsin Statutes, enacted by chapter 477, Laws 1915, payments have been made on the principal as follows:

School Fund	$400,000.00
University Fund	111,000.00
Agricultural College Fund	60,600.00

By order of the Supreme Court an accounting was had between the trust funds and the general fund, due to the decision of the Forestry case wherein it was held that Forestry legislation was unconstitutional. Judge Samuel Hastings was appointed special referee and his findings, enacted subsequently into chapter 95, Laws 1919, showed the general fund of the state indebted to the normal school fund in the amount of $996,591.77. On June 1, 1919, certificates of indebtedness were issued to the normal fund for this amount. The present state debt as evidenced by certificates of indebtedness is therefore as follows:

School Fund	$1,163,700.00
Normal School Fund	1,512,291.77

STATEMENT OF NET DISBURSEMENTS

The detailed statements of disbursements appearing in Appendix A of this report of necessity show the total of all warrants drawn by the Secretary of State on the several funds. In consequence, four classes of items are included which must be deducted in determining the net amount of disbursements for each year of the biennium—(1) transfers, (2) refunds and repayments, (3) agency transactions, and (4) trust transactions.

1. **Transfers.** These items are occasioned by appropriations being made from one fund to another. For example, large amounts are appropriated biennially from the General Fund for University purposes; as the bills of that institution are paid from the University Fund Income, transfers must first be made from the General Fund to the University Fund Income, and the money finally disbursed from the latter fund. In one instance, transfers must be deducted twice in order to show the true disbursements. The Secretary of State is authorized, with the approval of the Governor, temporarily to transfer sums of money from the General Fund to the University Fund Income, to be returned when the tax levied for University purposes is collected. It will be seen that when this transfer is made from the General Fund to the University Fund Income, it appears as a disbursement; when the money is expended by the University it also appears as a disbursement; and when the institution returns the borrowed money, the amount appears for the third time as a disbursement; therefore a double elimination is necessary.

2. **Refunds and repayments.** This item needs no explanation.

3. **Agency transactions.** In five instances the state, acting solely as agent, is now collecting money and returning it to localities, as provided by statute. These are known as agency transactions. The amount collected from counties as a special charge for the care of their own chronic insane is returned to the county institutions in addition to state aid: 85 per cent of street railway tax collected is immediately returned to the localities through which the lines run; terminal tax is paid to localities as soon as collected; fire department dues are distributed in full to localities upon the certification of the Commissioner of Insurance; and delinquent taxes are also returned.

4. **Trust transactions.** This caption is self-explanatory. The item consists, for the most part, of trust fund investments.

The following statements show that the net disbursements of the state for the fiscal year 1919 amounted to $18,671,572.10 and to $38,352,329.93 in 1920.

DETAILS OF REPORT

Appendix A.

Detailed statements of the receipts and disbursements of the several funds for the fiscal years 1919 and 1920.

Appendix B.

Valuation of the taxable property of the several counties of the state, as determined by the Tax Commission, for the years 1918 and 1919, and the apportionment of state tax and special charges for said years.

Supplement No. 1

Issued in separate volume and contains names, addresses and amounts paid to soldiers, sailors, marines and nurses who served in the War against Germany, as bonus as provided by Chapter 667, Laws of 1919.
